## ROTEC HEALTH CAREERS STUDENTS EXCEL

Four Health Careers students from the Roanoke Technical Education Center have been given a valuable educational opportunity this year by the Jefferson College of Health Sciences. These students have been offered the opportunity to take a college level course in Anatomy and Physiology on the JCHS campus and with current JCHS students. They are concurrently enrolled in the ROTEC Health & Medical Careers Education program.

Kierra Thomas, Lisa Dinh, Tiffany Williamson and Julissa Massa were chosen by their ROTEC instructors and accepted by Jefferson College of Health Sciences to participate in this pilot program to give them a "step up" toward their goal of attaining a bachelor's degree or attaining other credentials to prepare for work in

the healthcare field. Each is highly motivated, excels academically, and has a genuine interest in pursuing a career in healthcare. The students were offered this rare opportunity, tuition free, by Jefferson College.

Classes began in August and all four have excelled. Reports from Mike Slaughter, Program Director for Math and Science at JCHS, are that each one has earned an A for mid term in BIO 151. Their teacher, Mr. Eckes, has stated that, "they are all exceptional and set high performance standards for the rest of the class."
